Meet Carousel and Esprit

The Noelex 30 is the large sister to the very successful Noelex 25. Designed by Bruce Farr it is a lively performance yacht, and with the roller furling jib, self-tacking headsails easy to sail shorthanded. The hydraulic lifting keel enables you to get closer to the beaches and explore more of the Bay of Islands.

The large open main saloon has an inviting L shaped settee which converts into a double berth. The galley to starboard has sink, plenty of bench space, refrigeration and a full marine oven with gas burners.

Accommodation: The forward cabin has a generous double berth. Separate head (toilet) on the port side forward of the main cabin. In the main cabin the table next to the port settee drops down to make another double berth. The settee on the starboard side is suitable for a child's bunk. Generous single quarter berth aft.
